## About us...

Knowla Livestock is a family owned and operated company comprising of James and Annie Laurie, Ted and Alison Laurie, and Marie Laurie. Children, Sandy, Doug, Rob, Jack and Georgia play an active role in the properties operation when time permits outside of their own commitments. Marie's husband Cliff passed away in 1992 and was the boy's inspiration through his work ethic and passion for livestock.

We are the fourth generation to run beef cattle on the headwaters of the Barrington River at Moppy west of Gloucester. Surrounded by the Barrington Tops National Park 2200 hectares and a further 600 hectares of leased land is managed. Whilst it is undulating to steep grazing country it is ideal for cow calf production. The 130 hectare Kia Ora property, Kanangara on the outskirts of Gloucester was purchased in 2007 and is the site for our annual production sale.

Traditionally Devon/Shorthorn cross breeders, progeny from the Kholwha Devon stud were sold at the Gloucester bull sale from 1981. A decision was made in the early 90's to transfer our interests to breeding Angus cattle and in 2019 we celebrated 25 years of breeding registered Angus cattle, with the foundation bloodlines purchased from Dulverton, Forres and DSK Angus studs. Today, just over 250 registered and performance recorded Angus females are joined, with elite cows placed into an embryo transfer program as well.

Just over 400 commercial cows are joined to produce feeder steers for either the EU grain fed market, or the heavy grass-fed MSA domestic and export markets. An annual pasture improvement program covering approximately 250 hectares each year produces winter feed and establishes high performance pastures to increase overall production. As a result, the total kilograms produced has almost doubled in the past twenty years.

## The Genetics

We feel this year's team offers all those attributes that has allowed the Angus breed to become such a dominant player in the southern Australian beef marketplace. Whilst many display exceptional growth, we also select heavily for calving ease and the carcass traits which make Angus cattle so acceptable throughout the industry. We continue to introduce new genetics into our herd and this year's team is no different.

The \$140,000 Dunoon Prime Minister P758 makes his debut with six sons, as do three Te Mania sires in Parenthesis P446, Qontemplate Q1149, and Qompulsory Q1070 with twenty-five sons between them. Twenty lots are by homebred sires, Quantum Q41, Packer P130 and Pepper P91 also making their debut. Returning sires, Landfall Nobleman N106, Bowmont King K306, Booragul Revenue M4 are all represented, albeit with smaller numbers, totaling twelve lots. Returning homebreds, Nobleman N127, Payout P175, and Novatell N131 are represented by twenty-one sons.

The Prime Ministers sons display exceptional growth and presence with three sons in the first pen. Full brothers at Lot 3 and Lot 4 are particularly eye catching individuals with real sire potential. Parenthesis was used as our joining sire on heifers, and it is noteworthy that two also make the front pen at Lots 1 and 2. This sire group is typified by their extra length and adequate bone, but with high carcass IMF. The other two Te Mania sires are represented in the autumn group, with Q1070's all born out of heifers and excel for calving ease, whilst the Q1149's add extra frame and growth potential.

Quantum Q41 is a homebred Drive son with moderate growth and tremendous temperament, but he also delivers exceptional carcass merit with thickness and high IMF. Our 2020 sale high sellers, Packer P130 and Pepper P91 have some standout sons in both age groups, but in the front pen of yearlings at Lots 25,26, and 29 there are three eye catching individuals. Both sires provide extra growth potential with high carcass merit, with the Packers in particular presenting softness and sire appeal.

The Landfall Nobleman N106, King and Revenue lines again present sons that they have become renowned at past sales. Nobleman N106 provides high growth, apparent in his three sons in the second pen. King has established his reputation as a breed leading carcass sire, evident in his sons at Lots 39 and 40. Revenue is known for his outstanding temperament and maternal excellence, typified by his son at Lot 11.

Knowla bred sires, Nobleman N127, Novatel N131 and Payout P175 feature strongly throughout the catalogue. N127 brings calving ease and additional growth, but maintains the carcass merit of his sire, King K306. Lots 5, Lot 31 and 32 bring a mix of great data and physical attributes which we can recommend to all our clients. N131 produces progeny with shape and carcass merit with the bonus of high calving ease and moderate birth, displayed in Lot 35. Payout has had limited opportunities in the stud herd but produces high yielding moderate growth sons.

For those people looking for bulls to use over heifers take note of the 'Heifer Tick' system in the catalogue. Whilst each bull in the catalogue has had a birth weight collected and recorded, and the TACE analysis does a good job of identifying those bulls best suited for heifer joining's, we like to add our extra knowledge to the assessment. For example, we know which pedigrees often produce larger calves, and we visually assess the shoulder shape on each bull. The outcome is a three-tiered system as follows:

- √√√ Sleep easy at night heifer bull.
- √√ Under most circumstances a very safe heifer bull.
- √ Use on well grown heifers with good management up until calving.

At the completion of the bull lots are seven PTIC stud heifers, to be sold in single lots. They have been selected straight out of our joined "keeper" stud heifers and will be on the point of calving at the sale. They were selected as we have retained full sisters, or several sisters closely related. Of note is Lot 85, an elite heifer from our autumn joining group, the proceeds of which will be donated to the Angus Foundation. Many of these heifers are PTIC to the \$190,000 Knowla So Right S48. As in previous years we will offer 100 unjoined commercial heifers in pens of 15 to 18 head, that represent the bloodlines used in both our stud and commercial herds and will sell as EU accredited.

# Sale Details

## HOW TO GET THERE

From Gloucester travel 3.5 kms towards Barrington and turn right into Bowman Farm Road, (from the north turn left 2 kms on southern side of Barrington) for 1km over Barrington River then turn right onto Kia Ora Road for 2km and on top of hill continue straight on into Old Kia Ora Road for 2 km to Sale complex.

## FARM BIOSECURITY

All persons attending the property will be required to register and record contact details.

## INSPECTION

Sale bulls and sale commercial females may be inspected by arrangement with either vendors or the agents. All lots will be penned on sale day by 10 am at the sale complex, Kanangara. **NO CHILDREN ALLOWED IN SALE PENS.**

## ADDITIONAL INFORMATION

A supplementary sheet will be produced for sale day.

## REBATE

The vendors will provide a 4% rebate to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf within seven days.

## PHONE BIDDING

Mobile phone bidding on the day can be arranged prior to the sale through the Agents, Elders Walcha, on 6774 2600 or Allan Laurie 0455 821 394. The sale will also be on Auctions Plus. To register contact (02) 9262 4222 or visit [www.auctionsplus.com.au](http://www.auctionsplus.com.au)

## REGISTRATION

The selling agents will be using the card registration system so please allow yourself time to register prior to the sale and be able to nominate your PIC number.

## GST

Prices for all lots sold will be GST exclusive at the fall of the hammer and 10% will be added on the invoice.

## GENETIC CONDITIONS

The bulls will be deemed either free by pedigree or tested and nominated in the catalogue of their status for AM, NH, CA, & DD.

---

Jack, Georgia,  
Alison and Ted

# Sale Details

## CATERING

Morning tea, light refreshments and lunch will be provided with all proceeds going to the Gloucester Pony Club.

## INSURANCE

It will be the responsibility of the purchasers to insure their bulls if required which can be arranged through Achmea representative at the sale.

## BUYERS INSTRUCTIONS

Please complete the buyer's instruction slip at the rear of the catalogue. No verbal instructions will be accepted.

## DELIVERY

The vendors will provide delivery on all bulls to all major centres in NSW at their expense, as soon as possible following the sale.

## TAKING DELIVERY

Upon taking delivery of your purchase it is very important to realise that our bulls have been run in large mobs since weaning. If you are a single bull purchaser the day he arrives at your property can be quite traumatic as it will be the first time he is away from his contemporary group, and into a strange environment. Have some other cattle in the yard to ease him into his new surroundings, a few steers or a pregnant cow will do. Our bulls are handled with horse and dogs all their life and whilst we educate them to be comfortable with people on foot or motorbike, they have only been moved on horseback. Again it is important that the first time you move your new bull that it is in the company of other cattle that are comfortable with your methods.

## HERD HEALTH

All the bulls have been fully vaccinated for 7 in 1, Vibrio, Pestivirus, IBR, and 3 Day sickness but require boosters in autumn 2024 and a broad spectrum drench would be advisable at the same time. They have been tested free of Pestivirus. Both properties involved in the sale, Knowla and Kanangara were in Bovine Johanes disease protected areas, and have had no history of the disease. Biosecurity plan implemented, JBAS 7. A National Cattle Health Declaration will be supplied to all purchasers.

Stuart Knox of Taree Veterinary Hospital will subject the bulls to a breeding soundness examination on 30th June, 2023. This will include internal and external examination of the reproductive tract, palpation and scrotal measurement, as well as a semen quality test.

## PRIVACY INFORMATION

The majority of the animals included in this catalogue are registered with the Angus Society of Australia. The buyer is encouraged to have transferred to his or her membership any animals purchased. In order for the transaction to be effected, the buyer will need to provide certain personal information to the Society and consent to the collection and disclosure of that information by the Society in certain circumstances. If the buyer does not wish for his or her personal information to be collected and disclosed by the Society, the buyer must opt out of the option to consent by completing the form which will be available on sale day and forwarding it to the Society. If the form is not completed, the buyer will be taken to have consented to the collection and disclosure of that information by the Society.

## DISCLAIMER

The owners, employees and representatives of Knowla Livestock accept no liability for any accidents that may occur. Although such occurrences are rare, any persons attending the Knowla Livestock sale do so at their own risk.

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

## ATTENTION BUYER

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

## PARENT VERIFICATION SUFFIXES

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

# : DNA verification has not been conducted.

E : DNA verification has identified that the sire

and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

June 2023 TransTasman Angus Cattle Evaluation

Table with 12 columns: DIR, DTRS, GL, BW, 200, 400, 600, MCW, Milk, SS, Doc. Rows include EBV (+1.2, -5.6, -5.0, +4.1, +54, +95, +127, +120, +6, +1.6, +33), Acc (56%, 45%, 70%, 74%, 71%, 70%, 73%, 68%, 60%, 72%, 49%), and Perc (64, 97, 45, 50, 30, 36, 29, 20, 99, 68, 9).

\$INDEX VALUES

Table with 2 columns: \$A-L, \$A. Values: \$344, \$201.

Heifer Bull

Table with 3 columns for Heifer Bull values, all showing dashes (-).

Table with 12 columns: D to C, CWT, EMA, Rib, Rump, RBY%, IMF%, NFI-F, Claw, Angle, Leg. Rows include EBV (-2.8, +81, +12.0, -2.4, -3.4, +1.4, +3.0, +0.33, +0.88, +0.98, +0.80), Acc (37%, 60%, 59%, 61%, 61%, 55%, 64%, 51%, 72%, 72%, 68%), and Perc (90, 13, 5, 92, 92, 7, 26, 69, 58, 52, 3).

Traits Observed: BWT,200WT,400WT(x2),600WT,SC,Scan[EMA,Rib,Rump,IMF],DOC, Structure[Claw Set x 1, Foot Angle x 1],Genomics

Well made moderate growth Q41 from a King Bartel E7 cross cow producing high EMA and IMF progeny.

June 2023 TransTasman Angus Cattle Evaluation

Table with 12 columns: DIR, DTRS, GL, BW, 200, 400, 600, MCW, Milk, SS, Doc. Rows include EBV (-3.0, -14.0, -3.5, +5.4, +55, +102, +134, +131, +10, +0.6, +33), Acc (55%, 45%, 70%, 74%, 72%, 70%, 73%, 68%, 61%, 72%, 49%), and Perc (87, 99, 70, 78, 29, 20, 17, 10, 94, 93, 8).

\$INDEX VALUES

Table with 2 columns: \$A-L, \$A. Values: \$343, \$203.

Heifer Bull

Table with 3 columns for Heifer Bull values, all showing dashes (-).

Table with 12 columns: D to C, CWT, EMA, Rib, Rump, RBY%, IMF%, NFI-F, Claw, Angle, Leg. Rows include EBV (-3.8, +79, +10.6, -1.1, -1.6, +0.9, +4.0, +0.30, +0.88, +1.02, +0.78), Acc (37%, 60%, 59%, 61%, 61%, 55%, 64%, 51%, 73%, 73%, 69%), and Perc (73, 16, 10, 73, 72, 23, 10, 66, 58, 62, 2).

Traits Observed: BWT,200WT,400WT(x2),600WT,SC,Scan[EMA,Rib,Rump,IMF],DOC, Structure[Claw Set x 1, Foot Angle x 1],Genomics

Bred the same way as the last Lot but possibly with more growth and similar carcass merit, notably top 10% IMF.

Foundation Donor heifer - selected as potentially the top heifer from our T yearling drop. She has a nicely balanced dataset across all the traits, from high calving ease to moderate birth and out to top 20% growth, balanced carcass traits, and into top 5% on the majority of the \$ indexes. Her sire Novatel N131 has been a consistent performer for us, with 12 sons through this catalogue and he produced a number of sale toppers at our 2021 sale, including R46 who will have his own progeny in next years offering. Dam, Kruger Q23 is an attractive young cow from donor Kruger K112. Q23's first calf sold last year for \$20k to Roma Downs. Kruger K112 also has other daughters retained in the herd, notably two sisters to Rockefeller R108, homebred sire retained in the stud herd. Another K112 son sold for \$24k to Ellerston last year. AI to the \$190,000 Knowla So Right S48 on 27/5/23 then depastured with Knowla Sonic S184.

So Right S48 set our sale alight last year when he commanded attention from a number stud syndicates, with Sprys and Cottage Creek Angus the successful purchasers. We retained a semen interest and have used him heavily in both our spring and most recent autumn joinings. He is moderate framed with extra volume and thickness and has a nice set of balanced data from our Designer cow family that keeps producing the good ones.
